

MetaMask: The Future of Your Crypto Wallet

Discover how MetaMask is revolutionising the way you interact with cryptocurrency, decentralised applications, and the evolving world of Web3.

From Ethereum Pioneer to Multichain Powerhouse

Massive User Base

Launched as the go-to Ethereum wallet, MetaMask now serves over 30 million monthly active users worldwide, establishing itself as the industry standard.

Multichain Evolution

Originally Ethereum-focused, MetaMask has expanded to support Ethereum, BNB Chain, Gnosis, Sepolia, and numerous other networks seamlessly.

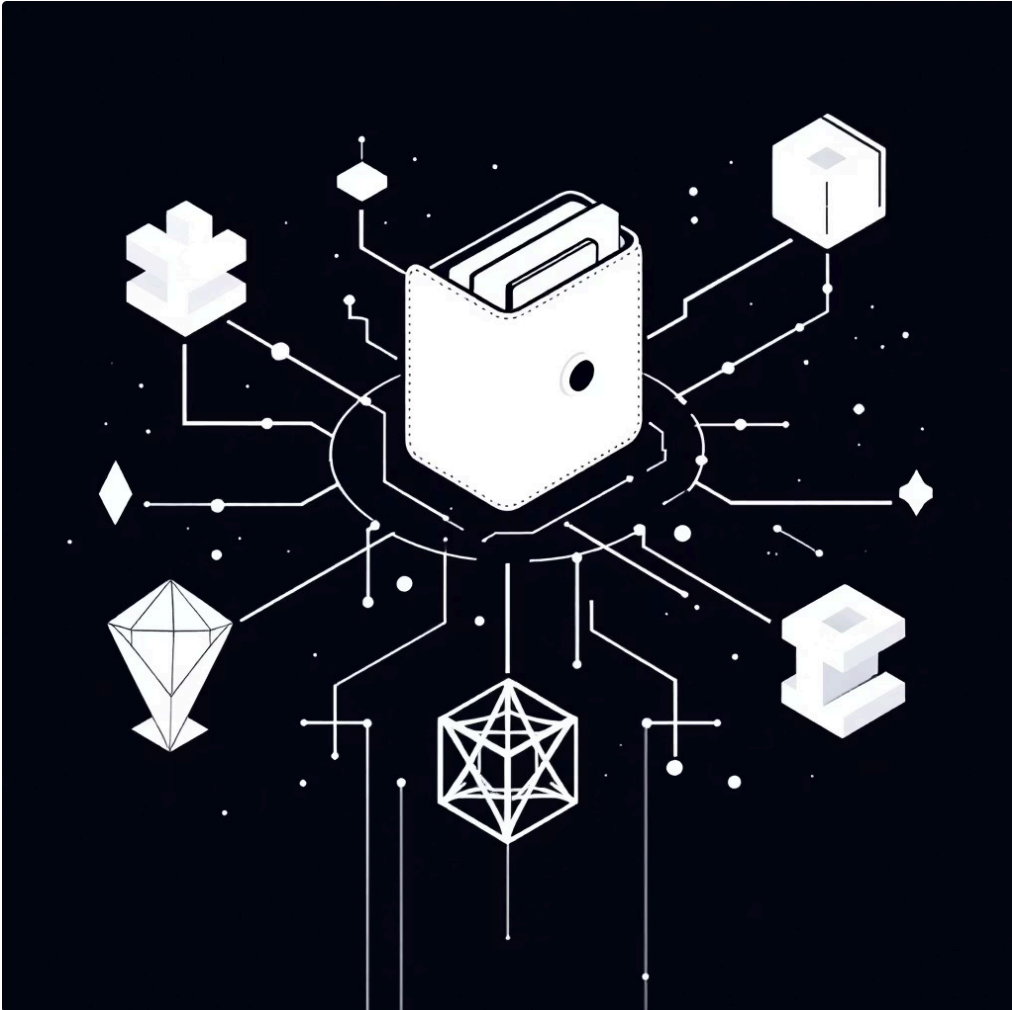

Proven Security

With over 5 billion transactions processed since 2021 and unmatched security audits, MetaMask has established an unparalleled track record of reliability.

Visualising MetaMask's evolution into a comprehensive multichain wallet that bridges diverse blockchain ecosystems

Multichain Accounts: One Wallet, Many Blockchains

Revolutionary Simplicity

A single MetaMask account now manages Ethereum, Solana, and soon Bitcoin addresses seamlessly, eliminating the complexity of multiple wallets.

Unified Security

No more juggling multiple wallets or seed phrases—one Secret Recovery Phrase controls all your blockchain addresses securely.

Intelligent Matching

Auto-matching of Solana and EVM accounts provides a smooth, intuitive user experience across different blockchain architectures.

Automatic Updates

This powerful feature rolled out automatically in MetaMask Mobile v7.57 and Extension v13.5, requiring no action from users.

Smart Accounts: Unlocking Next-Level Wallet Features

Batched Transactions

Combine multiple blockchain steps into one seamless operation, dramatically reducing gas fees and saving valuable time on complex interactions.

Gas Abstraction

Pay transaction fees in any token you hold—use DAI, USDC, or other assets instead of ETH, providing unprecedented flexibility and convenience.

Future-Ready Design

Switch to Smart Accounts once and automatically access new features as they launch, without changing addresses or disrupting your existing setup.

Available now in MetaMask Extension v12.17.1 and later versions, bringing advanced wallet functionality to your fingertips.

MetaMask Card: Spend Crypto Anywhere

Virtual Card Launch

Launched July 2025, the virtual MetaMask Card enables instant online crypto payments at millions of merchants worldwide, directly from your wallet.

Physical Card Coming

Expected April 2025, the physical metal card will enable in-store spending via the Mastercard network, combining crypto freedom with everyday convenience.

Bridging Digital & Physical

MetaMask Card bridges the gap between crypto assets and everyday purchases, making your digital wealth as spendable as traditional currency.

Native Solana & Bitcoin Support: Breaking Barriers

1 May 2025: Solana Integration

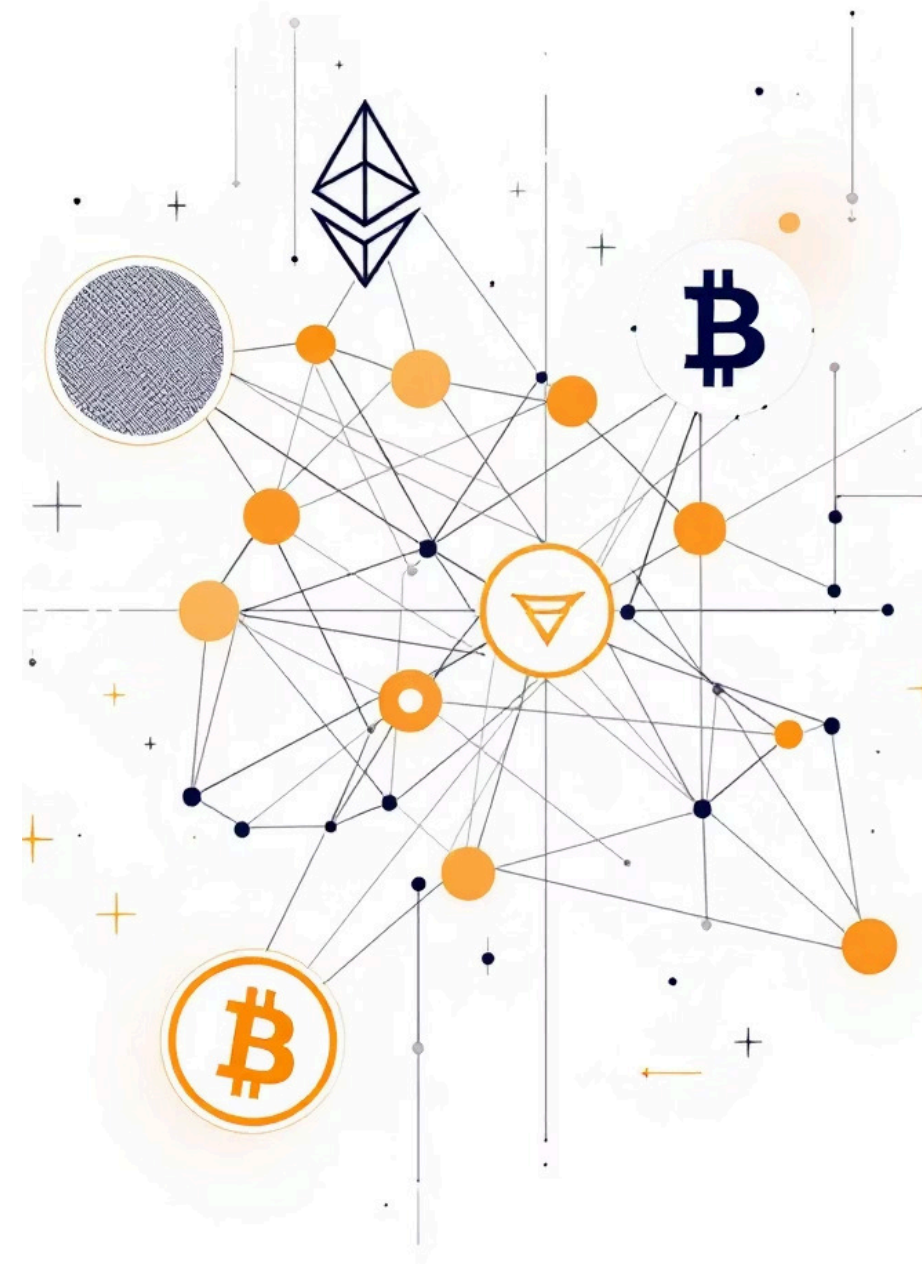

Solana was integrated natively into MetaMask, eliminating the need for separate wallets like Phantom and providing seamless access to the Solana ecosystem.

2 Bitcoin on the Roadmap

Bitcoin support is actively in development, with the ambitious goal of unifying the three largest cryptocurrency ecosystems under one wallet interface.

3 Unified Experience

This integration enables seamless swaps, cross-chain bridges, and comprehensive portfolio views across all major blockchain networks from a single interface.

Security & Usability: MetaMask's Dual Commitment

Redesigned User Experience

The completely redesigned UX simplifies network selection, dapp interactions, and account management, making safer choices the default for all users.

Built-In Protection

Wallet Guard integration, frontrun protection, and real-time security alerts are built directly into MetaMask, defending against common attack vectors.

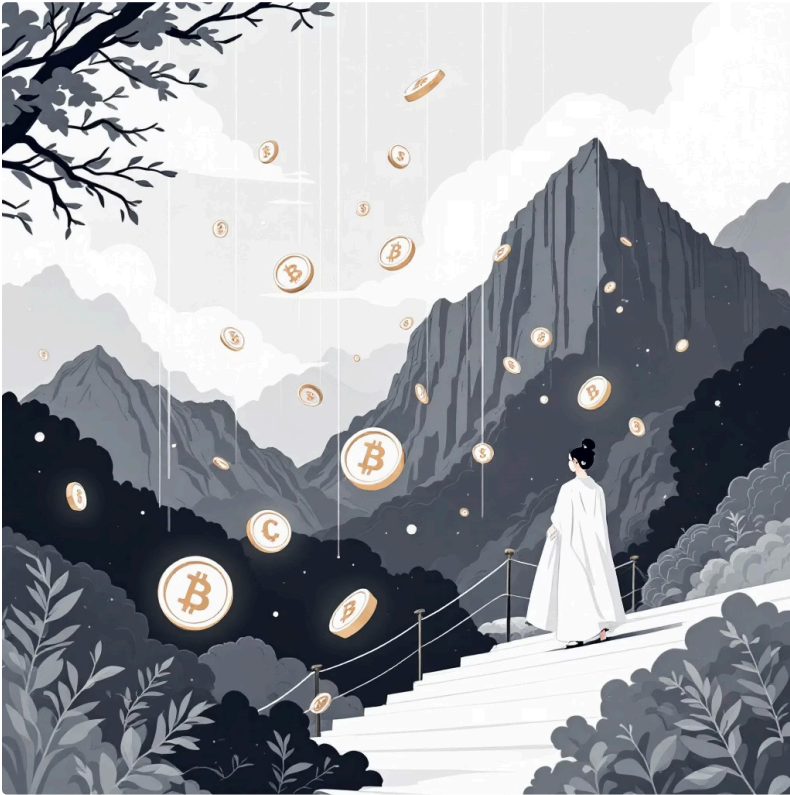

Advanced Smart Account Features

Smart Accounts introduce multisig wallets, delegated permissions, and revocable controls, providing institutional-grade security for individual users.

Scam Awareness

Always verify: the official Smart Account switch occurs only via MetaMask prompts within the application. Never trust external links or suspicious requests.

The \$MASK Token & Rewards: Engaging the Community

Rumoured \$MASK Token

Speculation surrounds a potential \$MASK token launch designed to incentivise governance participation and reward long-term MetaMask users.

Massive Rewards Programme

MetaMask Rewards Season 1 offers over \$30 million in \$LINEA tokens for trading activity, referrals, and active ecosystem participation.

Airdrop Hints

Domains like claim.metamask.io and gift.metamask.io strongly hint at upcoming airdrops and additional user incentive programmes.

MetaMask's Vision: Your Gateway to Web3 Freedom

Infinite Possibilities

One wallet, one recovery phrase, infinite possibilities across blockchains—MetaMask simplifies the complex world of cryptocurrency.

User Empowerment

Empowering users with genuine control, robust security, and seamless access to DeFi, NFTs, and decentralised applications.

Join the Revolution

Experience the future of crypto wallets today with MetaMask—your trusted gateway to Web3 freedom and financial sovereignty.
